Antiviral nucleoside analogues and their bioactive phosphorylated metabolites: state of the art review of their detection and tissue monitoring applied to the anti-HIV drug AZT, **G. Gosselin, J.-L. Imbach** and **J.-P. Sommadossi**

Analogues nucléosidiques antiviraux et leurs métabolites bioactifs phosphorylés: une revue de synthèse et d'actualité sur leur détection et dosage illustrée dans le cas de l'AZT 181

Intrathymic development of mouse αβ and γδ T cells, **F. Grassi, I. Liberman, P.-A. Cazenave** and **D. Rueff-Juy**

Développement intrathymic des cellules T αβ and γδ chez la souris 197

Il y a 100 ans...

C. Bon: A propos de l'article d'Albert Calmette «Contribution à l'étude du venin de serpents. Immunisation des animaux et traitement de l'envenimation» paru dans les Annales de l'Institut Pasteur en mai 1894 219

1st Forum in the Bulletin de l'Institut Pasteur

"Metastases" organized by **R.M. Fauve**

Introduction: **R.M. Fauve** 229

The behaviour of metastases from spontaneous human tumours: therapeutic possibilities and limitations, **L. Israel** 230

Molecular basis of cancer invasion, **S.A. Aznavoorian** and **L.A. Liotta** 234

The $\alpha_5\beta_1$ integrin in tumour suppression, **E. Ruoslahti, M.D. Pierschbacher** and **V.L. Woods, Jr.** 242

Is there a role for "anti-adhesives" as chemosensitizers in the treatment of solid tumours by chemotherapy? **R.S. Kerbel, B. St. Croix, J. Rak** and **C. Graham** 248

Multistage carcinogenesis: involvement of tumour suppressor genes in the genesis and progression of human cancer, **J. Yokota** 256

Calcium signal transduction targets in invasion and metastasis, **S.A. Savage** and **E.C. Kohn** ... 259

Plasminogen activators and fibronectin fragments in tumour growth and signal transduction, **S. Barlati** 269

Possible roles of bFGF and PKC in the evolution of metastases in malignant melanoma and gastric adenocarcinoma, **A.P. Albino, G.K. Schwartz** and **J.A. Reed** 276

Tumour collagenase-stimulating factor: a paracrine stimulator of fibroblast production of matrix metalloproteinases in cancer, **S. Zucker** and **C. Biswas** 284

Anatomical and pathological aspects of metastatic spread of tumour cells, **X. Sastre-Garau** ... 290

Correlation of MMP-2 with metastases, **S. Garbisa** 294

Antiviral nucleoside analogues and their bioactive phosphorylated metabolites: state of the art review of their detection and tissue monitoring applied to the anti-HIV drug AZT, **G. Gosselin, J.-L. Imbach** and **J.-P. Sommadossi**
